SERVICES AND OPERATIONS:

Sourcing:

We work closely with farmers in remote villages, building strong relationships to ensure a consistent supply of raw cashew nuts. Our dedicated team identifies reliable sources, ensuring the nuts meet our stringent quality standards while adhering to ethical and sustainable cultivation practices.

Processing:

Our state-of-the-art processing unit employs modern equipment and techniques to process raw cashew nuts meticulously.

Focusing on maintaining nutritional value and taste, our skilled workforce ensures that our cashews are processed and packaged to meet the highest food safety standard

Export:

Akros Limited serves clients worldwide as an export - oriented company. We have established a robust distribution network that enables us to deliver our premium-quality cashew nuts efficiently and promptly. Our export operations comply with international regulations and certifications to guarantee quality and food safety.

- About 70+ Metric Tons (Equals to 5 X 20'Ft Container) Monthly
- Number of Cartons/Box in a Full Container Load: 20'FT Container carries 700 Cartons/Boxes
- 40'ft Container carries 1350 Cartons/Boxes
- Labelling: Per Customer Requirement

Cashew Nut Kernels Grading & Packaging

Our Cashew kernels are graded into white / scorched wholes, splits, broken pieces, etc. Depending on the shape, size and color of the kernel, there are various grades of cashew kernels, but few grades are commercially available and traded,

WW 160 and WW 180; A Premium Jumbo sized cashew nut, gifted with prestige and pride **“King of Cashew”** The highest grade in terms of size. They are larger in size and very expensive.

WW 210; are popularly known as 'Jumbo' nuts.

WW 240; it is an attractive grade **(Large Size)** which is reasonably priced.

WW 320; regular size cashew and although it's most popular among **cashew kernels** and most widely sold and distributed. This grade offers a perfect balance between size and cost. So, majority of the consumers opt for it.

Factory

Certified by ISO

"The best place to buy organic and premium quality cashew nuts"

"Elevate Every Bite, Elevate One's Life"

Factory Critical Control Points

- A Critical Control Points (CCP) system is in place to ensure the highest quality of cashews.
- Strict hygienic environment, machines and worker processes during the processing of nuts
- Processing time from steaming to packaging of finished products is strictly less than 12 days.
- We vacuum pack our cashew nut kernels in flexi bags infused with CO₂+Nitrogen gas.

OUR PEOPLE

We ensure the best working conditions for 300+ workers.

A water treatment plant provides pure drinking water for all workers,

Akros Limited pledges against child labor and gives preference to female workers for employment.

OUR ENVIRONMENT

We have undertaken efficient, waste-free energy initiatives.

We recycle cashew nut shells to burn the boiler instead of charcoal and wood as a cleaner and greener alternative to charcoal and wood.

This allows us to save thousands of trees per year.

SUSTAINABILITY AND SOCIAL RESPONSIBILITY

Akros Limited is committed to promoting environmental sustainability and social responsibility. We actively engage in environmentally friendly practices such as water and energy conservation, waste reduction, and responsible sourcing. Additionally, we actively support gender equality and youth empowerment, striving to create inclusive opportunities and improve livelihoods within our communities

QUALITY CONTROL

Quality is at the core of our business philosophy. We have an expert cashew grading and quality control team with good skills, knowledge, and experience over 10+ years in the cashew processing industry.

We implement stringent quality control measures at every stage of the value chain to maintain excellence. Our qualified team strongly emphasizes strict hygiene conditions throughout the entire process, from sourcing to packaging, to ensure that our cashew nuts are free from defects and contaminants and meet customer requirements.

PRE-SHIPMENT INSPECTION

Exports of cashew nut kernels from Tanzania are normally subject to voluntary quality control and pre-shipment inspection. An inspection of cashews is being conducted under the consignment-wise inspection. It is ensured that the product is processed and packed as per the standards prescribed by arranging a random sample from the finished product.

Mostly done by third parties, i.e., SGS

CLIENT SATISFACTION

Customer satisfaction is paramount to us. We prioritize understanding and meeting our client's specific needs, providing personalized service and tailored solutions. Our dedication to quality, reliability, and deadline adherence has earned us a reputation for exceeding customer expectations, resulting in long-term partnerships and numerous satisfied clients
